

## **Team Broga Pan Mee**

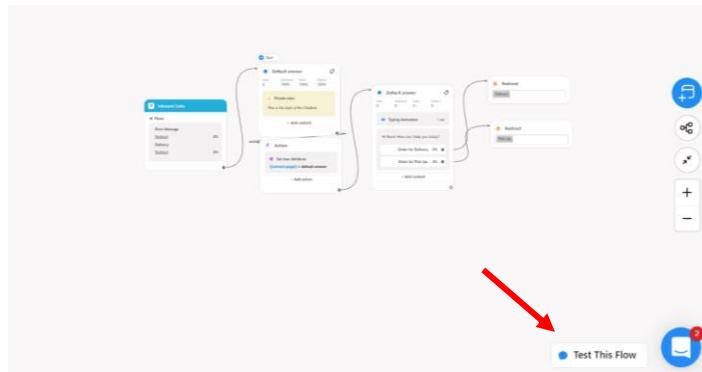

Please access the chatbot we have developed in Chatfuel using the link below.

<https://dashboard.chatfuel.com/invite/SXF3wHlasdJfmdd0VI7rewCwhF8WFC9v>

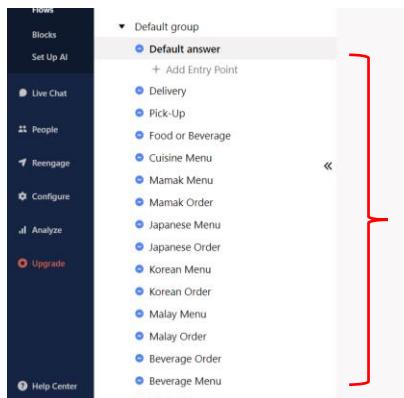

Once entered, please ensure that you are in the ‘Default answer’ Flow.

You may then proceed to test the Chatbot we have developed using the “Test This Flow” button at the bottom right corner.

After testing, you can inspect how every flow works by navigating through the Flows column.

To inspect keywords that we have programmed for the Chatbot to identify and give specific outputs, please head to the “Set Up AI” page in Chatfuel.

The screenshot shows the 'Set Up AI' page for a bot named 'My First Bot'. The sidebar on the left has 'Set Up AI' highlighted with a red circle and an arrow pointing to the main content area. The main area displays three sections of AI rules:

- Rule: contains**
  - Messenger reply**: Chef's Menu (with '+ add Block / Flow or Text reply')
  - Instagram reply**: (empty)
- Rule: close to**
  - Messenger reply**: Beverage Menu (with '+ add Block / Flow or Text reply')
  - Instagram reply**: (empty)
- Rule: contains**
  - Messenger reply**: Beverage Menu (with '+ add Block / Flow or Text reply')

A blue button at the bottom left says '+ Add AI Rule'.

Thank you so much for your time.
